20 YEARS OF WILDAX

20 years. Countless adventures. And plenty more roads still to explore.

Since 2006, we've been designing and building motorhomes here in the UK, with a focus on the things that have always mattered to us: quality of build, value for money.

From compact campervans for couples to versatile models for families, today's Wildax range continues to evolve – with motorhomes built on Fiat, Ford and MAN chassis and a nationwide network of dealerships helping customers find the right van for their adventures.

People. Passion. Places.

OUR COMMITMENT

At Wildax, we believe that touring is about more than just moving from one destination to the next. Since 2006, we have built motorhomes with the journey in mind, growing from just two to a full team of staff. Behind every Wildax is a workforce that care deeply about the spaces they create and the stories that will unfold within them. Our role is to give you the confidence and comfort to enjoy every mile, knowing that your motorhome has been made with adventures in mind.

Our commitment is to design and build motorhomes that make those journeys possible without compromising on the extras. Craftsmanship is at the heart of everything we do. We believe that practicality should go hand-in-hand with beautiful finishes.

But this goes beyond the build. Choosing a motorhome is a long-term decision and we're here to support you every step of the way. We put our all into thoughtful innovation as well as our after-sales department, making sure that your WildAx grows with you, season after season.

We're proud to be part of a community of people who share our passion for exploration. Every WildAx on the road is a reminder of the journeys yet to come. When you choose WildAx, you join a family of adventurers who believe that the best memories are made when you follow your own path.

The Mercury features a brand-new electric drop-down bed, cleverly designed to maximise space and versatility. At the touch of a button, the area effortlessly transforms from a comfortable social space into a relaxing sleeping area, bringing two essential living spaces together in one.

Mercury Daytime

Mercury Night time

As the newest member of the Wildax family, the Mercury brings together clever design, everyday comfort and practical innovation to create the ultimate home from home.

At the heart of the Mercury is a 1875 x 1200mm bed, complemented by a comfortable, luxurious seating area below – creating a welcoming communal space to relax, unwind and enjoy life on the road.

The Mercury also features a fully equipped, contemporary kitchen, designed to make mealtimes effortless wherever your adventures take you. A stocked out kitchen, including 3 gas cooker, along with plenty of storage and a 75 litre fridge/freezer.

Thoughtfully designed from front to back, the Mercury makes the most of every inch of space, giving you everything you need to travel, relax and explore in comfort.

Built on the iconic Ford Transit, the Mercury is a state-of-the-art two-berth motorhome designed for your next adventure. At just 5.4 metres long, it offers the perfect balance of comfort, practicality and freedom on the road.

Inside, you'll find everything you need for a comfortable getaway, including our standard fully equipped kitchen and washroom. The Mercury also features an innovative new rear space, designed to seamlessly transform between a comfortable sleeping area and a relaxed social space – giving you even more flexibility wherever your journey takes you.

The central dinette in the Equinox is a versatile hub for meals and games on the road. Both seats are belted and located just behind the cabin seats.

Equinox Nighttime

Equinox Pop-top

The Equinox is built for families who love to get out and explore together. The pop-top roof creates a sleeping space above, while the spacious double bed below offers comfort for parents or guests. At the center, the lounge dinette brings everyone together.

Powered by the Ford Transit and available with 4x4 capability, the Equinox gives you the confidence to head beyond the everyday journey. Fully winterised tanks and diesel/electric heating mean that you can travel in comfort all year round.

Built on the iconic Ford Transit, the Equinox is a 4-berth, 4-belt motorhome. Celebrating an amazing over 40 year history of the Ford Transit, the Equinox has 130BHP as standard. This can be upgraded to 165BHP for that little bit extra.

Altair features a twin induction hob, full-height fridge/freezer, microwave, and generous storage. With no gas on board, everyday living is powered by a combination of electric and diesel systems.

POWERED FOR EVERY JOURNEY

Altair is designed for travellers who want confidence to go further. It has a fully electric setup. Cooking, heating, and everyday comforts run through a reliable electric and diesel system, supported by solar and advanced battery technology with no gas onboard.

At almost 7m, the Altair range gives you the space to unwind, while still remaining practical for touring an everyday travel. Inside, every detail has been designed to make the most of its generous proportions. Grade 3 insulation throughout, the Altair stays cosy in winter and cool in the summer, ready for year-round adventure.

Powered by the renowned MAN TGE, combining strong performance with everyday driveability. It has automatic rain sensor wipers and a fully winterised body. The MAN chassis also provides excellent payload capacity with a GVW of 3500kg.

Aurora is designed to make everything straightforward. It has a mix of gas, diesel, and electric systems. Aurora offers familiarity and flexibility for all types of travel. Controlled via the iNetX touchscreen panel, the Truma Combi D4 system delivers efficient heating. Multiple outlets throughout the living space make Aurora a confident choice for year-round use.

The kitchen in the Aurora is gas-based with a three-burner hob, plus oven and grill. The setup gives you the freedom to cook whatever, wherever. It also has a 75L fridge/freezer as a standard. For those needing more space, the Aurora XL upgrades this to a 152L fridge/freezer as well as a microwave.

Aurora is built on the trusted Fiat Ducato, long regarded as the benchmark in the motorhome world for its reliability and drivability. With a GVW of 3500kg, it offers plenty of capacity while remaining easy to handle on the road. Within this range, there is a 6-speed manual transmission or an 8-speed automatic transmission.

There are deep drawers and clever cupboard layouts that keep everything within easy reach. Smart storage means more space for what really matters.

The award-winning Solaris XL offers a highly flexible design for a family of 4. With long bunk beds in the rear and a full double bed in the front, everyone has a place in the Solaris. There is a full-size kitchen with lots of storage and worktop space, incorporating a full-height fridge/freezer, oven and, sink.

This design offers drawers in the place of cupboards, where possible, to give greater access to storage in the harder-to-reach places. Another storage area can be found at the rear, behind the bunks, to give a range of options throughout.

Solaris is built on the trusted Fiat Ducato, long regarded as the benchmark in the motorhome world for its reliability and drivability. With a GVW of 3500kg, it offers plenty of capacity while remaining easy to handle on the road. Within this range, there is a 6-speed manual transmission or an 8-speed automatic transmission.

WILDAX
MOTORHOMES

www.wildaxmotorhomes.com

UPGRADE PACKS

OPTIONAL EXTRAS TO MAKE YOUR WILDAX TRIP EVEN BETTER

We also offer carefully developed upgrade packs for your motorhome, giving you the option to personalise your motorhome with features that adapt to the way you like to travel.

From advanced power systems to premium design touches, these packs are created to make your time on the road feel even more rewarding than ever.

The result? A motorhome built around you. When you're investing in touring, every detail should feel exactly right.

VOLT PACK

Designed around an advanced power system, this upgrade gives you the ability to provide full mains electricity in the wild. This upgrades the standard specifications to a large lithium battery and a larger inverter. The result is simple: more power, for more time, with less worry.

The Volt Pack is available across our WildAx motorhomes. Speak to your local dealer to discover how the Volt Pack can give your adventures the energy they deserve.

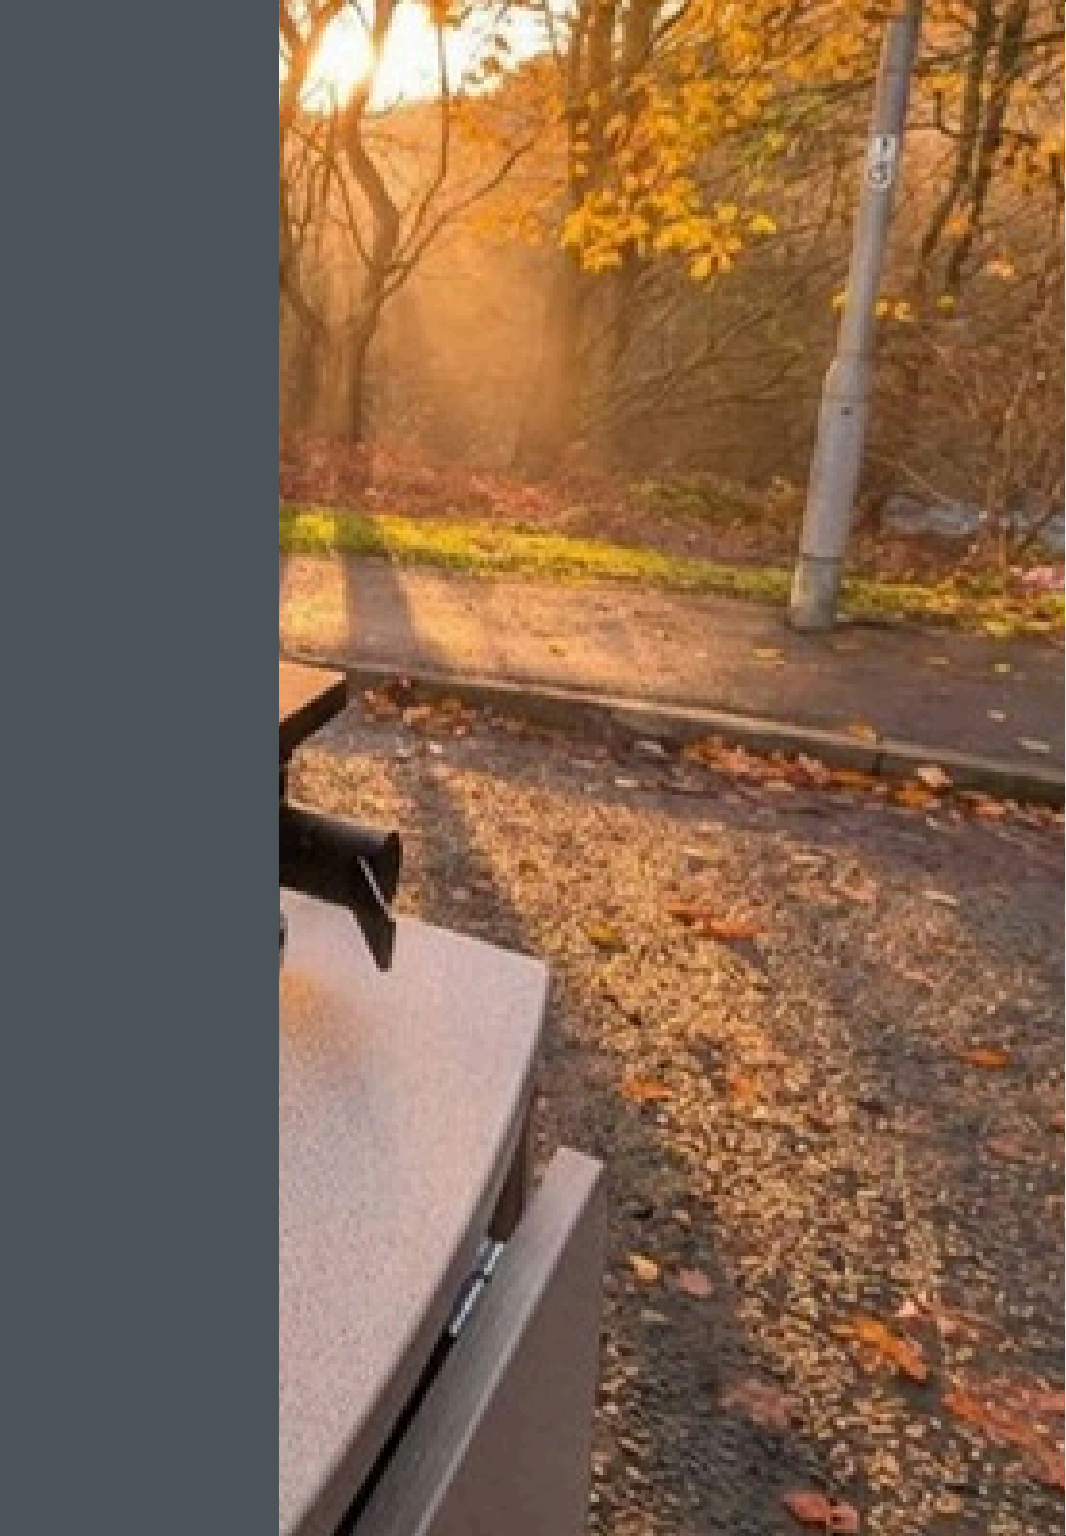

SKYVIEW PACK

The Skyview upgrade has been designed to transform the feel of your WildAx from the moment you step inside. The fixed panoramic glass panel spans the top of the cabin, opening up the space with natural light and giving a clear view of the world above.

It is seamlessly integrated into the vehicle, so there's no compromise on insulation or comfort.

The Skyview Pack is available across our WildAx motorhomes. Speak to your local dealer to discover how the Skyview Pack can transform your space.

WARRANTY & AFTER SALES

Investing in peace of mind is another standard with Wildax. When you purchase a motorhome with us, journeys will feel easier than ever, knowing you're supported by a warranty and after-sales service. You focus on the adventure, we'll focus on the admin. We provide a comprehensive three-year warranty as standard, giving you the long-term reassurance from the very first day of ownership. Our commitment to you doesn't stop at a promise on paper. At the heart of our business is a dedicated aftersales department, based at our Elland headquarters, who are here to support you long after you've driven away. You won't be directed to a faceless call center; you'll be in touch directly with Wildax, speaking to people who know your vehicle inside and out.

Our after-sales team pride themselves on their personal service, so every query sent to us is handled with care, attention and, urgency. Whether you have a simple question about how something works or need help arranging a repair under warranty, our goal remains the same - to resolve issues quickly so you can get back on the road.

If you ever need our after-sales support, the process is designed to be as simple and stress-free as possible. All you need to do is email us at aftersales@wildaxmotorhomes.com. If a repair is needed, we'll arrange it either at our headquarters or through one of our trusted WildAx dealerships across the UK. You can choose whichever is most convenient for you, not just the one you purchased from. Our goal is always speed, clarity and, care when it comes to our after-sales department. We also follow up to make sure repairs have been handled to the highest standard, making sure you feel supported long after the work is complete. The process is straightforward, the service is attentive and the focus is always on keeping your adventures worry-free.
