ELARA

AN 'A-CLASS' MOTORHOME IN A PANEL VAN

Fully Winterised Motorhome - insulated for sub-zero use. Wild Camping Ready - low power design maximises 12v systems for longer use without mains electricity.

WILDAX Elara

Available now is the Elara. Based on the magnificent Mercedes Sprinter the Elara has been designed as an 'A Class' in a panel van body! Huge specification and a modern design and feel give the Elara a luxurious and 'open' feeling inside.

The rear bed is an island type layout double bed or twin single beds depending on options chosen. In the Elara the bed is likely to be the most comfortable sleeping experience in any motorhome you can try! With a large 6ft 6 custom made pocket sprung mattress this bed should be as good as any you can find at home.

Dimensions

Length – 6.97m
 Width – 2.02m / 2.34
 with mirrors
 Height – 2.75m (approx)
 GVW = 3500kg

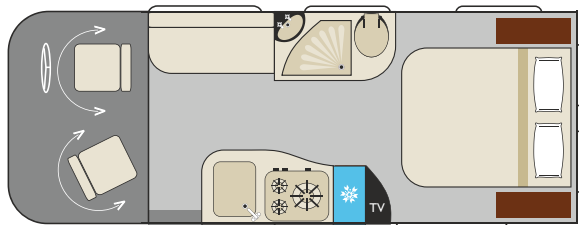

The washroom is a bespoke fibreglass shower tray and sink with easy to clean GRP sides and roof. With the new Thetford all porcelain toilet there is a very home like feel to the washroom. As a wet room you simply slide the waterproof door closed and you are ready to shower without the nuisance of a shower curtain in the way. With side wall and roof windows there is ample ventilation to let the room dry after in no time at all.

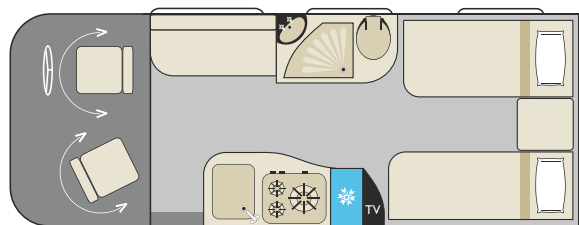

In the kitchen area we have equipped the Elara with an electric induction hob and 2 gas rings along with an oven and grill. Also on offer is a large 142 litre fully automatic 3-way fridge freezer and lots of storage.

To the front is a sofa and 2 rotating cab seats for relaxing and dining.

Island Style Bed Layouts

Single Bed Layouts

All WildAx motorhomes have 2 main design features:

To be fully winterised, and as such are independently tested to ensure that we offer the maximum protection for usage in cold weather. The standardised test we use involves temperatures down to minus 20 deg C. This is achieved by ensuring the entire motorhome is fully insulated including the water tanks that have a 12v frost protection system installed. Our motorhomes all have the Truma iNet installed as standard enabling your Truma Combi to be controlled from an app on your phone!

To be wild camping ready. This is achieved in a number of ways. We use low power consumption parts where possible including LED lighting and 3 way fridges. Our water tanks are custom made to our designs giving up to 120 litre capacity. Also as standard there is an underslung refillable LPG tank (40 litres). The Elara has 2 x 100Ahr leisure batteries as standard to give an impressive 2-4 days off mains without an engine start.
