ALTair RS

All Electric, NO GAS

Perfect for off grid adventures

WILDAX Altair RS

New for the 2023 model year is the Altair. Built on the superior quality MAN TGE the Altair is a 3 berth luxury fully winterised motorhome. The Altair RS gives you two large luxurious single beds at the rear which join at the head end across the rear of the van. Under these beds is a large rear garage storage area accessed from the rear doors. At the front the RS gives you a spacious lounge area formed by a sofa and the tow cab seats that rotate to face the rear.

The Altair is an all electric designed motorhome which provides a flexible use anywhere habitation system based on lithium batteries, large solar panels and an inverter which powers all electrical appliances when used in the wild. This motorhome uses no gas. The vehicles drive train is still a diesel engine.

Dimensions
Length – 6.84m
Width – 2.04m (without mirrors)
Height – 2.75m (approx)
GVW - 3500kg

Vehicle Standard Specification

The new Altair is unique as a motorhome in the respect that it has no gas in the vehicle. The fridge, cooking and heating/ hot water are all provided by electricity with the added benefit of diesel for heating and hot water. Whilst on mains hook up everything works like a regular motorhome, then when using the motorhome in the wild electrical power is provided through the 12 volt system or mains power provided through the 3kW inverter. This inverter supplies power to all sockets, the induction hob, and the microwave. Power is provided by two 100Ahr lithium batteries which are charged either by the engine when on the move, from the huge 400 Watt solar panels or mains charger.

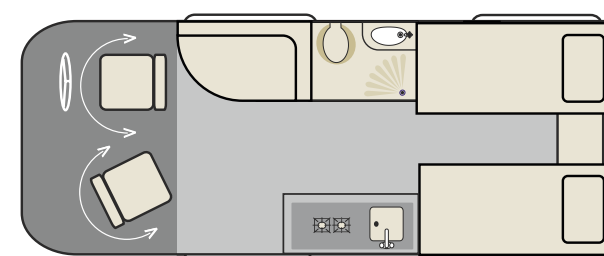

Altair - 2 belts, 3 berth. 6.84m long

WildAx Standard Equipment

Pass Air Bag	Metallic Paint
Cruise Control	Bluetooth
Air Conditioning	DAB touch screen stereo
